“

**Lunit AI is like a navigation.** It is like working with a very smart Radiologist. My reading speed has increased 30%. With the time saved, I interact more with the patients, performing biopsies and tasks that require more professional knowledge. I can now work more efficiently.

**Korea Yongin Severance Hospital  
Eun-Kyung Kim, Deputy Director**

“

Lunit's AI helps highlight the cancerous area in mammography. It does not neglect even the smallest nodules, helping the double-checking process. This way of working is like working with a well-trained breast specialist.

**Singapore FeM Surgery  
Dr. Felicia Tan (Breast Specialist)**

“

Lunit AI helps in situations when patients are overflowing whereas only few radiologist are available. In such, AI greatly assists in patient triage and monitoring.

**Brazil Prevent Senior Hospital  
Dr. Fabrício Próspero Machado**

# Superior Performance Among Competitors

## Accuracy

### Superior Performance

<p><b>JAMA Oncology</b> Salim, et al. JAMA Oncol. 2020 Aug 27. # Short-Term Business Expansion

Lunit Revenue Growth (Unit: KRW Billion)

## Cancer Screening

Lunit INSIGHT

- Increased revenue through partnership
- Geographical expansion through regulatory approvals
- More cancer types screened  
lung, breast → prostate, pancreas, liver, etc.

## Cancer Treatment

Lunit SCOPE

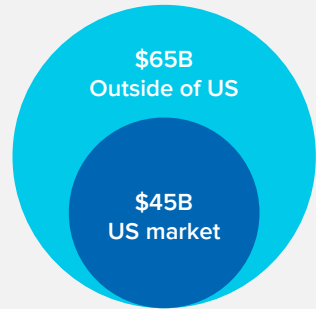

- Increased collaboration with pharmas
- Increase in Research Use Only revenue
- Exponential revenue after CDx approval

# Long-Term Business Expansion

## Cancer Screening

Cancer Screening/Dx Market is a “\$110B opportunity”

“Liquid biopsy is the future of cancer screening”

Bert Vogelstein  
Johns Hopkins Oncology

Pioneer in cancer genetics  
“Breakthrough Award” (2013)

But liquid biopsy has  
**clear limitations**

LBx accuracy

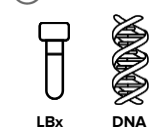

**30%~80%**  
sensitivity

Lunit will overcome the limitations through a  
collaboration of **Imaging AI** with liquid biopsy

Imaging test  
+ AI

GUARDANT

**New screening method**

Currently in discussion with Guardant Health:  
a test method consisted of imaging+AI and liquid biopsy

## Cancer Treatment

AI biomarker-based Drug Development Company

Drug Discovery

New drug  
candidate

**Discovered**
