Partner Testimonials

" First AI company collaboration for our x-ray business "
— General Manager K ✳ ✳

GE Healthcare

"This is actually **out first AI company collaboration for our x-ray business. The offering will be available on all of GE digital, fixed, and mobile, and even fluoroscopy.** Leveraging the long-term established expertise, that GE has on x-ray equipment in combination with Lunit's technology will help to keep up with the customer needs, care deeply about patients and diagnosing physicians or radiologists."

" Felt very high customer satisfaction "
— Global Marketing Manager M ✳ ✳

FUJIFILM

"In Japan especially, many of the elder people cannot move from home to the clinic to take x-ray. Our x-ray with Lunit AI can visit to take x-ray immediately at home, so it is a significant difference. After we used Lunit AI in the market, I didn't have any complaints. From Fujifilm's standpoint, whatever AI lunit made has a very high quality, so **we would want to implement it in our x-ray system or PACS system.** Customers have already started to use AI and expect more support."

" Lunit has both strong clinical record and national scalability "
— Global Software Product Manager P ✳ ✳

AGFA HealthCare

"**Lunit has a strong clinical validation track record and is registered in Europe and also more than 19 countries, making it an excellent partner for developing solutions that bring our customers intelligent and definitive answers to their daily needs.** We believe that the integration of Lunit's AI in Agfa's advanced medical imaging workstation will help facilitate more effective clinical workflows in various hospital situations."

The reason why drugs with biomarker/CDx are best-selling despite narrower indication

Business Model Paired with pharma's drug, generating high sales by active testing before treatment
